

to provide leadership, promote safety, and enhance the value and reputation of the underground facility locating industry in Canada.

CANADIAN ASSOCIATION OF PIPELINE AND UTILITY LOCATING CONTRACTORS

The Canadian Association of Pipeline and Utility Locating Contractors (CAPULC) was founded in April 2002. The common goal shared by members of the association is to improve the locating and ground disturbance industry. We have a vested interest in directing the development of standards for the industry in Canada, through education and making industry specific information available to our members. We agree that the development of Canadian standards, the guidelines for evaluating competencies and qualifications required, should be determined by those of us with the knowledge and experience involved in the locating industry.

ASSOCIATION GOALS

Governance

To facilitate a comprehensive review of the Association's current governance structure in a way that identifies gaps and highlights areas of improvement for the purpose of providing a defined governance structure and sustainable presence in each province in Canada.

Strategic Networks

To improve CAPULC's presence in the existing network of industry related organizations in a way that enhances the association's voice for the purpose of establishing CAPULC as a leader in the pipeline and utility locating industry.

Outreach

To enhance communications with members, non-members and stakeholder groups in a way that increases visibility of the association for the purpose of increasing awareness about association activities and initiatives.

Sustainability

To develop a sustainable financial framework in a way that ensures CAPULC has the capacity to meet both short and long-term goals for the purpose of enhancing member benefits and maintaining growth in the membership base.

Recruitment & Services

To market association benefits and to develop new services in a way that will proactively address the needs of the industry for the purpose of establishing CAPULC as the preferred choice for professional membership.

Advocacy

To identify, interpret, and react to legislative and industry changes in a way that is relevant and timely to members for the purpose of maintaining the association's position as a leader in the pipeline and locating industry.

Education

To assist in the promotion and development of education programs in a way that enhances the association's relevance and value to the industry for the purpose of establishing the association as a proactive leader in program development.
